# Eczacin®

## Diaper Rash Healing Cream From Birth Onwards

### Prevents, Soothes, Relieves Pediatrician Recommended

Eczacin diaper rash healing cream contains natural care substances to protect and heal baby's sensitive skin. It prevents and treats diaper rash in a safe, effective and natural way. Combination of zinc oxide, chamomile and oat meal, gives maximum strength to naturally calm and revitalize baby's delicate skin.

### Hypoallergenic Paraben, corticosteroids, dye and fragrance free

#### Indications

- Best for mild to moderate diaper rash
- Prevention and improvement of skin heat rash
- Works by creating an effective barrier layer that protects baby's skin all day and all night

#### Directions

From birth onwards, at each diaper change apply Eczacin Diaper Rash Cream to clean and dry skin to create a protective barrier that keeps moisture out.

#### Cautions

- For external use only
- Avoid contact into the eyes.

**Packaging:**  
50 ml in Tube

*P*araben, corticosteroids, dye and fragrance free

## Atopy Control Cream

Eczacin Atopy Control complex is formulated patently by Holistica laboratories to relieve dryness, itching and irritations due to babies' atopic dermatitis or other irritating conditions, and causes effective repair. Eczacin is a non-greasy, light texture and easy to absorb cream that greatly hydrates and improves skin damages caused by atopic dermatitis.

### Composition

Eczacin cream has natural anti-eczema formulation and contains flavonoids, anthocyanin, saponin, oat meal extract and iridoid glycosides. Eczacin cream is free of paraben, steroids, paraffin, fragrance and dye, and is fully safe, beneficial and gentle for the daily use of infants and children.

### Indications

- Kids' eczema
- Kids' sunburns
- Sweat burns and minor burns
- Kids' acne
- Cold burn
- Itching

### Directions for use

Skin must be clean and dry before applying. Massage a small amount of Eczacin cream into the affected area until it is completely absorbed. Repeat as needed.

### Cautions

- For external use only
- Avoid contact into the eyes.

## Cleansing Lotion Hand & Face

Eczacin cleansing lotion contains very gentle non-alkali and soap free cleansing agents, which is enriched with natural moisturizing and anti-inflammatory factors. This gentle, replenishing and effective cleansing lotion can be used daily without washing away skin's natural protective barrier. It moisturizes the skin, supports its natural barrier function and helps to relieve itchiness. The formula leaves skin smooth and supple and is ideal for daily cleansing.

Eczacin cleansing lotion is suitable for all skin types and is especially suitable for dry and sensitive skin. It is also helpful for skin with eczema, dermatitis and psoriasis. For best results in these patients, it is better to use in combination with Eczacin Cream.

### Composition

Eczacin cleansing lotion formulation contains natural emollient and anti-inflammatory constituents from coconut oil and glycerin, Lauryl Glucoside, a non-alkali cleansing agent and Citric Acid for pH normalization.

- No paraben
- No corticosteroids
- No paraffin
- No lanolin

### Direction for use

Eczacin cleansing lotion is suitable for daily use in all skin types and especially it is very helpful for dry and sensitive skin, and skin conditions like eczema, psoriasis, dermatitis and ichthyosis.

### Cautions

For external use only

### Packaging

400 ml in pumped container

# Urelin® 3%

## Baby Eucerin

Urelin 3% Baby Eucerin cream is uniquely formulated to maintain long-term hydration, relieve dryness and repair of baby skin.

### Urelin 3% is enriched with:

- Eucerin
- Urea
- Zinc Oxide
- Lactic Acid

**Eucerin** is the most similar natural fat to human skin and by creating a protective layer on the surface of the skin, prevents dehydration and restores skin softness.

**Urea** penetrates deeply into the epidermal layer of the skin and can absorb and retain water molecules for a long time.

**Zinc oxide** is used to treat and prevent minor skin irritations, diaper rash and burns.

**Lactic acid** increases moisture in skin by softening the stratum corneum holding the top layer of skin cells together. This aids the dead skin cells to fall off and helps the skin to remain hydrated. Additionally, lactic acid helps restore skin pH balance.

### Uses

Urelin 3% cream is an emollient cream and is used to treat any skin dryness and damage, psoriasis and ichthyosis in newborns and babies. Urelin cream formulation contains no paraben, steroids, paraffin, fragrance and dye, and it is fully safe and beneficial and gentle for daily use. Urelin 3% can be used for daily moisturising of hands, face, and body, and for prevention of skin inflammation.

### Direction for use

Massage a proper amount of Urelin 3% into the clean and dry skin until it is completely absorbed. Repeat the use of Urelin 3% as frequently as needed every day.

### Cautions

- For external use only.
- If irritation develops, discontinue use.
- Avoid contact into the eyes.

**Packaging: 100 ml** in Tube

## Emollient Cream

Urelin 5% Emollient Cream is uniquely formulated to maintain long-term hydration in the skin, relieve dryness and repair the tissue.

**Urelin 5% Emollient Cream is enriched with:**

- Eucerin
- Urea
- Hyaluronic Acid

**Eucerin** is the most similar natural fat to human skin and by creating a protective layer on the surface of the skin, prevents dehydration and restores softness in the skin.

**Urea** penetrates deeply into the epidermal layer of the skin and can absorb and retain water molecules for a long time.

**Hyaluronic acid** in Urelin Cream has a very effective role in the moisturizing and repair of dry skin.

Urelin 5% Emollient Cream is free of paraben, steroids, paraffin, fragrance and dye, and fully safe and beneficial for daily use.

### Direction for use

Massage a small amount of Urelin 5% into the skin until it is completely absorbed. Repeat the use of Urelin 5% as frequently as needed every day.

### Cautions

- For external use only
- Avoid contact into the eyes.

## Emollient Cream

Urelin 10% Emollient Cream is uniquely formulated to maintain effective and long-term hydration in the skin, relieve extreme dryness and repair cracked feet and heels.

**Urelin 10% Emollient Cream is enriched with:**

- Eucerin
- Urea
- Ceramide

**Eucerin** is the most similar natural fat to human skin and by creating a protective layer on the surface of the skin it prevents dehydration and restores softness to the tissue.

**Urea** penetrates deeply into the epidermal layer of the skin and can absorb and retain water molecules for a long time.

**Ceramide** is the main component of the stratum corneum of the epidermis layer of human skin. Together with other lipids, ceramide creates a water-impermeable, protective organ to prevent excessive water loss due to evaporation as well as a barrier against the entry of microorganisms. Urelin 10% Emollient Cream is free of paraben, steroids, paraffin, fragrance and dye, and fully safe and harmless for daily use.

### Direction for use

Apply a proper amount of Urelin 10% Cream on affected areas of the skin and rub in until it is completely absorbed. Repeat the use of Urelin 10% as frequently as needed every day.

### Cautions

- For external use only
- Avoid contact into the eyes

### Packaging

100 ml in Tube
